ABOUT

UI/UX engineer with a software developer background. Quick learner and detail-oriented, focused on intuitive and accessible user experiences. Creative and pragmatic thinker, flexible team player, and passionate about art + technology.

EDUCATION

Colorado School of Mines
BSc Computer Science 2019
Minor, Applied Mathematics

EXPERIENCE

UI/UX Designer – Myridius

JAN 2024 - PRESENT ▪ ISELIN, NJ

- Rapid design and prototyping for an industry-agnostic centralized data aggregation application, resulting in high fidelity UI designs.
- Client-facing lead for comprehensive website redesign project, creating consistent design standards for a major private bank.
- Guided front-end development to ensure ADA accessibility compliance for the website of Colorado's second-largest bank.

UI/UX Designer – Woodridge Software

FEB 2022 - JAN 2024 ▪ LAKEWOOD, CO

- Designed user-centered interfaces for an enterprise data platform used for maintenance management and GIS systems, including changes to data visualizations and internal workflows.
- Responsible for entirely custom UI and UX design overhaul to digitize business deposit account openings for a large banking client.
- Designed high-converting promotional landing pages, boosting customer acquisition for a Colorado-based private bank.

Senior, Lead Software Developer – Woodridge Software

JUN 2021 - JAN 2023 ▪ GOLDEN, CO

- Develop a configurable GIS work management platform utilized by 1,000+ public utility clients in a C# backend and AngularJS frontend.
- Standardized Jira configurations and processes across all projects in the company and served as internal Jira administrator.

Software Developer – Woodridge Software

JUN 2019 - JUN 2021 ▪ GOLDEN, CO

- Built a full stack data aggregation platform that offered real-time insights into oil and gas well maintenance for the U.S.'s leading oil well service provider.
